CEREMONY

CRILLU

Crilu

Dearest Clients,

We are pleased to present you our collection and to tell you our story. Our company, CRILU' TESSUTI, was born in Italy on the shores of lake maggiore in 1988, in a little city called Arona.

Since the beginning, our founders, Lorenzo and Luciano has poured their passion and experience into our company. This has been characterized by the high quality of its products and the constant research of the best fabrics.

Through the years, we've expanded into the B2B sector, the textile wholesalers specialized in wool and cashmere.

In 2007, the two founders developed a new market for tuxedo fabrics based on market demand, while maintaining their original design style.

Due to its unique style and wedding/event scene, it has been recognized by the market and quickly adopted by the high-end custom markets in North America and Europe, becoming a unique Italian high-end custom fabric brand, providing professional high-quality fabric resources for high-end custom dress markets around the world.

After years of continuous improvement and innovation, it has become one of the few professional dress fabric brands in the world.
